Professional Summary

Full Stack Software Developer with hands-on experience building and deploying production web applications using JavaScript, TypeScript, React.js, React Native, Node.js, Express.js, and MongoDB. Skilled in designing RESTful APIs, implementing JWT authentication, and deploying applications on AWS EC2. Also brings working knowledge of Python, Generative AI, and prompt engineering, along with strong problem-solving, debugging, and cross-functional collaboration abilities.

Education

Masai School

Full Stack Web Development (MERN Stack)

Aug 2024 – Nov 2025

Bengaluru, Karnataka

Chhatrapati Shahu Ji Maharaj University

Bachelor of Science (B.Sc.) in Chemistry

Jul 2021 – Apr 2024

Kanpur, Uttar Pradesh

Projects

eFormX Digital Solutions | React.js, Node.js, Express.js, MongoDB, JWT, AWS EC2

[Live Demo](#)

- Built an early-stage digital services platform for online applications, document services, and customer workflows using React.js, Node.js, and Express.js.
- Implemented RESTful APIs with JWT authentication, role-based access control, validation, and backend business logic for secure service workflows.
- Integrated MongoDB for application data management and deployed the platform on AWS EC2 using Git for version control and application maintenance.

Valdio | React.js, Node.js, Express.js, MongoDB, Tailwind CSS

[Live Demo](#) | [GitHub](#)

- Engineered a MERN-based e-commerce platform supporting product browsing, filtering, cart management, and order processing for 200+ product listings.
- Built RESTful APIs with JWT authentication and role-based authorization, securing access across customer and admin roles.
- Crafted responsive React.js interfaces with Tailwind CSS, optimizing UI performance across mobile and desktop.

VibeSync | React.js, Node.js, Express.js, MongoDB, Firebase

[Live Demo](#) | [GitHub](#)

- Created a real-time group planning application with polling, voting, and RSVP tracking used by 50+ test users.
- Configured Firebase Authentication with protected routes and secure session management.
- Assembled reusable React components and RESTful backend services, reducing duplicate code across features.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, Python, HTML5, CSS3

Frontend: React.js, React Native, Tailwind CSS, Chakra UI, Context API, Responsive Design

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, API Integration

Databases: MongoDB, Mongoose, Firebase, MongoDB Atlas

AI: Generative AI, AI Agents, Prompt Engineering, AI-assisted Application Development

Cloud & DevOps: AWS EC2, Git, GitHub, Deployment, Vercel, Netlify

Tools: Postman, VS Code, Vite, Expo, Android Studio, npm

Soft Skills: Problem Solving, Debugging, Teamwork, Communication, Time Management, Adaptability
